Amazing scenery, astounding views, very warm weather, fun and exciting activities - Austria 1990! It rained on the day we arrived, and on the day we left, but between these times the sun added that little extra something to some wonderful memories of a great ten days. To start with there were a lot of new names and faces as Adderbury met Sibford, met 4th, met 2nd Banbury. There was a very long coach and ferry journey to survive. There were new currencies to learn. There was a lot of excitement and adventure ahead....

AUSTRIA '90

Dormitories were selected and working groups organised. Duties included cooking, washing-up and cleaning. Stanzach was a small alpine village but had several interesting shops to visit during any spare time.

As well as visiting the Bavarian Castles in Germany, the favourite activity of the week must have been the dry Toboggan run, near Innsbruck. Here the speed and danger elements were real as you hurtled down the track!

The challenge of the week came on the last day. Over half the party managed to climb to the highest point in the Lechtal. We were tired and exhausted - BUT WE HAD DONE IT!

Austria is different to Britain in more ways than just a change of language and different scenery: the streets are so clean; the people are so friendly and trusting; you don't find roadworks everywhere you go! It was a great ten days away - so where next?....
